

HOW WE WORK

*One integrated digital solution delivered to
your doorstep.*

Redmond92

7 Steps for your project:

- Initial phase**
1
Together discuss and map the key drivers, Business Processes as well as the scope what will be covered on the project following the AS-IS TO-BE process.

- Agreement**
2
We start building design documents for your company. Every step of the configuration is agreed.

- Design**
3
We design and configure your system in accordance with your business requirement and compliance.

- Review**
4
Together review all the configurations made to make sure that we reached your expectations and everyone's happy.

- Implementation**
5
We build the solutions and content to your new system, its tested and you're ready to go-live.

- Data Migration**
6
You add your data in our simple template and start the migration to the new solution.

- Training and Support**
7
Start training sessions with key users and end user support based on your contract agreement

Now your business is ready to start increasing productivity with the new solution. ✓
